Fusion Electric 150RW, installed as a single-sided fire. Shown with optional mood lighting kit

Authentic Flame Technology

Experience the epitome of realism in electric fires.

Elevating the Onyx Fusion 150RW to the pinnacle of luxury is our state-of-the-art Authentic Flame Technology, a crystal-clear, immersive display of real flame imagery.

Multiple flame options are available, from a flickering fire with sparks and wisps of smoke above, through to an elegant, swaying flame reminiscent of a gas fire and more contemporary, vivid flame effects. With an array of customisable visuals, you can set the perfect ambience for your home and mood.

Our Chromalight® Plus LED system is subtly integrated into the fire, bringing the Fusion to life. Lifelike Birch Log-effects glow from within to enhance the fire's authenticity, with a crystalline textured base illuminating them from underneath for a mesmerising effect. There is an array of colour options, including a spectrum mode to gradually transition through them all.

Whether you want to achieve a harmonious ambience by synchronising the colours of the fuel bed and log lighting, choose crisp white or warm amber downlighting, or adjust the five brightness levels of any of the effects, you can effortlessly control the Fusion's visuals using either the remote control or the app.

For an extra atmospheric touch, the Fusion can be paired with an optional Mood Lighting System, offering up to six metres of flexible LED strips that can be discreetly installed around a TV or along shelves to enhance your fire's glow, especially suited for an impressive media wall centrepiece.

All available with or without the heat, you can enjoy the full beauty of your Fusion fire all year round.

Up to 2kW programmable heating. Flames can be enjoyed with or without the heat

Multiple Installation Options

Single, two-sided corner and three-sided installations – all from one fire

Single-sided

Two-sided corner

Three-sided panoramic

Optional Mood Lighting System with 13 colours, plus spectrum mode

chromalight plus

Downlighting with 2 colour options

Hidden internal log lighting with 8 colours, plus spectrum mode

Media wall compatible. The Fusion's thoughtful proportions mean it's the perfect partner for a 50" - 65" television

50"- 65"

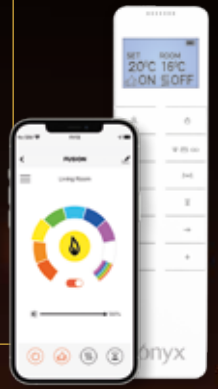
State-of-the-art Authentic Flame Technology provides a crystal-clear, immersive display with 16 flame settings

Complete Control

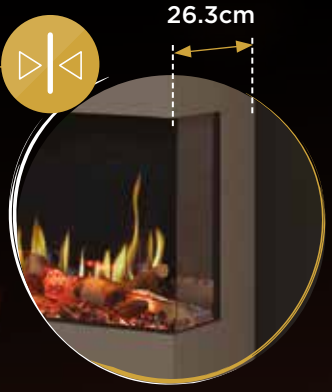
Thermostatic Eco Remote Control

App control on iOS and Android devices*

9 Quick-Start Pre-sets settings available (3 of which can be customised and saved)



*Search for Mus Flame in the App Store/Google Play.



The Fusion has a slimmer depth than many other electric fires making it particularly suitable for those where space may be limited.

SLIMdepth

Crystalline textured base with fuel bed uplighting in 8 colours, plus spectrum mode

Innovative Ecodesign Energy Saving features for high efficiency, such as Open Window Detection and Adaptive Start Control. See page 6 for details

eco DESIGN COMPLIANT

Effortless control

Both the innovative app and the thermostatic remote allow you to easily control the Fusion's range of visual and heating capabilities.

Choose from your favourite pre-set visual combinations, or create and save your own for convenience. You can cycle through 16 flame effects, two downlighting colours, all brightness levels, and independently select eight fuel bed and glowing log colours, or choose to synchronise them for perfect ambience. For seamless control, the remote and app are already enabled for the optional Mood Lighting System.

Ecodesign Energy Saving Features

You can choose to enjoy your Fusion's effects with or without the heat, as well as set a handy countdown timer for your heating. You can also set your ideal room temperature, and the 2kW heater will adjust its power to maintain this as efficiently as possible. With Open Window Detection, if the ambient room temperature drops by 4°C within a space of eight minutes, the Fusion's heater will automatically turn off to save energy. Heating can then be easily resumed with the remote control or app. Advanced Ecodesign energy saving features are also available when using the useful app, detailed below.

Innovative App

Designed from the ground up to be driven with a powerful app, the Fusion's full potential can be unlocked with an iOS or Android smart device – giving you all the functionality of the remote control and more.

Easily program your fire to provide different heating and flame schedules using the app. Create up to four daily heating schedules to suit your lifestyle, with room to save up to three weekly programs. With Adaptive Start Control, your Fusion automatically determines the correct time to turn on in advance of a pre-set time to reach your desired room temperature, ready for when you sit down and relax.

Download the app using the QR code or visit:

onyxfires.com/electricapp

Alternatively you can search for MUS flame in the App Store.

Experience the exceptional

When you choose Onyx, you are choosing more than just a fire or stove. You are choosing the pinnacle of British innovation and quality. You are choosing prestige. As part of the Stovax Heating Group, Onyx represents the pinnacle of more than four decades of British design and engineering expertise. Every fire and stove is born in our state-of-the-art research and development laboratories, and incorporates industry leading technology and design.

The Stovax Heating Group is an ISO9001 and ISO14001 accredited company. Our rigorous quality control system ensures that all our appliances are safety checked and that they comply with the appropriate regulations, with all fires bearing the CE and UKCA mark.

The Onyx Promise

Your Onyx retailer will provide you with a Three Year Warranty for your new electric fire providing it is registered with Onyx. Please note this warranty excludes certain consumable parts. Fires purchased outside of Onyx's Expert Retailer Network will carry a standard One Year Non-Extendable Warranty, or minimum statutory warranty for your country. Full warranty terms and conditions are available at: **onyxfires.com/warranty**

Expert Retailer Network

We take great care to ensure that our fires are designed, tested, and manufactured to the highest possible quality and safety standards. We are just as determined to make sure they are sold and installed correctly so that you will enjoy years of pleasure from your purchase. Accordingly, you will find the Onyx Fusion Electric is exclusively available from our experienced, independent retailers' showrooms.
